

Estate Liquidation Specialists, Inc.

Estate Experts with 33 Years Experience, we are Colorado's **Most Respected Estate Liquidation Company** and the ONLY Certified Estate Liquidators

Our estate services and appraisals are accepted by banks, lawyers, courts, insurance companies, IRS, bankruptcy courts, etc.

Always choose the best, not the cheapest estate liquidator. The least expensive service might cut their advertising budget, and/or their marketing budget, so they can cut their price. They might plan to sell your things to themselves or to their friends at bargain prices and therefore don't need outside buyers!!

Most other estate liquidation companies are amateurs; usually dealers, garage-sale-owners, or flea-market people looking for cheap inventory; they have no credentials, no certifications, no accreditations, no designations, no published ethics, and no oversight body to watch over their conduct, but they almost always have a great story!!

Trusting your property to an unqualified and unrecognized company can be highly problematic!!

Always ask about credentials, Certifications, accreditations, and Professional designations!!! If you want your estate handled professionally, you should always hire a member of the international appraiser's guild. This organization certifies estate liquidators!! You should always have your property priced by a designated professional appraiser; if not, the person is an amateur!!
